

Circle.

Voice

The simple, effective and cost-saving Microsoft Teams telephony system

Achieve unlimited communication with your colleagues, clients and customers through Microsoft Teams Telephony and Circle Voice. As a fully cloud-based, integrated solution, you can enhance the efficiency of your organisation and achieve unified communication.

Make remote working work for you

With working from home now the norm, Circle voice enables everyone in your organisation to easily work from any location without the need for separate phone systems or call diverting. Utilising Microsoft Teams, you can move away from traditional phone systems that require a static workplace or a physical phone. Users can easily operate as normal even when working away from the office. Make and receive calls anywhere, anytime, on multiple devices (personal or company) – just sign into Microsoft Teams and away you go!

As a fully cloud-based solution, there's no need for any onsite infrastructure, just make the switch and start calling.

Collaborate through one tool including messaging, calling, meetings, file sharing and existing third-party applications.

Benefits

- **Cost savings on calls**
- **Integrate existing phone systems**
- **Infinitely scalable system**
- **Smooth migration and simple set up**
- **Feature rich portal**
- **Optimise bandwidth and voice quality**
- **No need for onsite infrastructure**
- **Simple to use system**

Need call recording? No problem!

Circle Voice can even record phone calls if needed, so your organisation can remain fully compliant and use this to assist with any training requirements. Select the people you want call recording capabilities for and only pay for those who needs it.

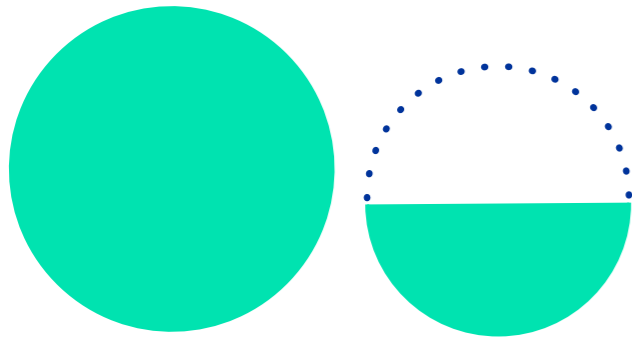

Make and receive UK, international and mobile calls even with non-Teams contacts with reliable and cost-effective calling bundles.

Why Circle?

When you work with us, you don't get an IT supplier but partner with your best interest in mind. We look at your organisation as a whole, working with you to find the best solution to match what you need now and to support your future goals. Long and short of it - is this right for you? If not, then we will find the right solution for you.

We pride ourselves on building long-lasting partnerships with organisations. Our Technical Architects and Account Management will form a key part of building a long-term IT strategy and roadmap for you. We ensure that you always have the right solution for your organisation, now and in the future.
